

## Alpine Retreat Morzine, France

### What we love...

We love the chalet's peaceful location, surrounded by space and forest with an alpine stream running by...

Perfectly positioned on the sunny side of Morzine Valley, this five bedroom luxury self-catered ski chalet has the feel and functionality of its more established contemporaries.

Sleeping ten guests across three stylish floors, Alpine Retreat cascades down the hillside much like its neighbouring streams. Whether it be the open-plan living area accommodating your entire party or the divine bedrooms tempting you to lie in bed and watch the snow fall outside, there is a corner of this chalet for each and every one of you.

A lavishly crafted boot room welcomes you from the driveway and a short wander up the steps treats you to the beautiful living area. With its stylish island kitchen, dining table for ten guests, TV area and lounge with a glass fronted fireplace, this is undoubtedly where you'll spend your evenings.

Adorned with stylish light fittings, faux fur throws, rugs and replica mountain hunting trophies, the designers have incorporated

contemporary chic wrapped in a cosy blanket of Alpine warmth. The weathered timber frame and aged wood cladding the walls throughout gives a lovely cosy cabin feel whilst the modern touches of a polished concrete floor, state of the art kitchen and clever lighting, bring it right up to date.

Upstairs four of the five bedrooms lie. Each of them have their own balcony or terrace affording stunning views across the Morzine valley outside. Each have their own en-suite bathroom and have been created individually to be as unique as you. Bold colours like gold and teal have been introduced to the trendy greys adding a splash of colour to the artist's palette and warmth to your luxury winter holiday.

Outside on the terrace lies the swimming pool (for summer use only), hot tub and latest addition; the fire pit. Snuggled up in a faux fur blanket gazing into the flickering flames whilst the cool mountain air swirls around you, makes a pretty perfect image doesn't it?
