

## Royal Infinity Villa Zakynthos

### What we love...

We love the private pool and beach area. This is a holiday too good to share!

The sea is ever present at this luxury Greek island villa. The property has been cleverly designed with wide doorways which open back to reveal the turquoise water wherever you turn, making this a villa where it's impossible not to relax.

You can listen to the waves lapping the shore from each of the superbly comfy king-size beds. Each of the luxury bedrooms also has a walk-in dressing room and beautiful marble bathroom. It's like having your own personal spa. Though if you require some really thorough pampering we can't recommend highly enough Porto Zante's own in-resort spa, which looks out over the Ionian sea and offers 20 signature therapies, designed to completely destress and soothe.

Back to your villa and the large

open-plan living space is a wonderful spot to sit and look out to sea as the sun sets. And if you happen to get a tropical shower, it's just lovely to sit inside and listen to the rain and the waves. On warm, sunny evenings, the outdoor dining area is the place to be, close to the private pool, so you can alternate a warm dip with some serious poolside lounging.

A set of stairs lead directly to your private area of the beach, which is decked out with loungers and umbrellas, so it's always ready for you.

Whether you choose to make the most of the exclusive resort's wonderful restaurants, spa and other facilities or prefer to enjoy the privacy of your villa, this is a truly special location where you'll make memories to treasure forever.
