

Villa Chipperfield Nord Lake Garda

What we love...

We love the beautiful double-height pergolas inspired by classic 'lemon houses', which make indoor/outdoor living a breeze.

Nestled into the hillside above Lake Garda's shimmering waters, this luxury villa cleverly combines the style of a classic 'limonaia' – high-walled lemon houses carved out of the slopes to protect the fruits in winter – with a contemporary and clean-lined design. The result is a striking villa that has a real sense of place and exudes peace and serenity.

The outside space at Villa Chipperfield Nord is a highlight. Olive trees and cypresses dot the landscape, far-reaching views stretch beyond the lake to the mountains, and double-height pergolas and long terraces provide plenty of entertaining space. The secluded swimming pool is located above the villa for extra privacy, flanked by plush white daybeds that are ideally placed for panoramic views.

Inside, this Lake Garda villa is a minimalist masterpiece of light and airy spaces, with multiple wings connected by outdoor terraces and walkways. On the ground floor, the open-plan dining and living area leads out to the shaded terrace, while upstairs, a master bedroom and a further two double bedrooms each come with a private ensuite bathroom or shower room. An external staircase leads to a separate guesthouse with its own facilities and private lake-view terrace.

With the bonus of room service, the use of a private chef for lunch or dinner and a 'maxi bar' for snacks and complimentary non-alcoholic drinks – plus access to the resort's Italian fine-dining restaurant – Chipperfield Nord has all the ingredients for an unforgettable luxury villa holiday in Lake Garda.
